

Empowering Orphans & Families In Haiti

Orphan & Family Care Center

Located in Arcahaie, Haiti, this site is the center of our Haitian programs, including children, youth, agriculture, medical care, and church planting.

Child Development Program

With a desire to keep families together and support the community, our child development program is designed to educate, feed, and care for dozens of local children, enabling their parents to work during the day.

Youth Development Program

This program started with five young men in August of 2015. Program participants are housed and fed while learning English, studying the Bible, receiving vocational training and mentoring, and learning life skills.

Spiritual Development

We focus on Bible studies, discipleship classes, and church planting to help combat hopelessness and pervasive fear, to spread the Gospel, and to improve the spiritual health of the community.
